VA Learning Management System

VA LMS

Your Future, Your Education, Your Convenience

VA LMS is the single point of access that allows all employees to manage, select and record their own training and continuing education. It is being implemented VA-wide in a two-phased approach:

- Phase One provides easy access to national mandatory training
- Phase Two integrates local learning offerings into the system

VA LMS will become your one location to access and track both local and national training offerings!

VA Learning University

VBA / NCA / VHA / STAFF OFFICES

With the VA Learning Management System, employees can:

- View and print their individual learning transcripts
- Search and access educational products and activities through a single portal
- Register for available courses
- Receive automatic notification of learning activities
- Share learning resources across the entire department
- Launch online training
- Record completed learning activities

Log-on to the VA Learning Management System (VA LMS) from any computer with Internet access: www.lms.va.gov

Log-on instructions for first-time users and additional training resources are available on the VA LMS communications website at www.InsideLMS.va.gov http://www.insidelms.va.gov/

VA LMS is now your one-stop-shop for accessing and tracking completion of national mandatory and other online courses. Familiar learning tools previously offered by the VA Learning University are in the process of being integrated into this one convenient system.

- **VA Learning Catalog** is transitioning into VA LMS. All web-based courses that were previously listed in the Catalog are now searchable and accessible in VA LMS. Other courses are continuously being transitioned to VA LMS as well!

- **Content Distribution Network (CDN)** still streams live and on-demand VA Knowledge Network video and programming to your desktop. A CDN LMS interface is being developed that will allow you to view and track completion of CDN programs through VA LMS!

This initiative is sponsored by the VA Learning University (VALU) in partnership with Veterans Benefits Administration, National Cemetery Administration, Veterans Health Administration and VA Staff Offices.
